

ONE WORLD

*The world is a family: diverse, united and warm
Where places of diversity come together and form.
Nation share and embrace their tradition,
and people strive for one united mission:
to be like a family, peaceful and kind,
and as one world, to be combined.*

*The world is a gallery of difference and variety,
Where we become one multicultural society.
A celebration of race, gender and age,
All are celebrated - the world is your stage.
A place where everybody is respected
And loved for their difference - not neglected.*

*The world is one and whole - not divided
Where by the Holy Spirit, we are guided
To be good to each other; we're one world
With God's blanket of love around us curled.
May we be loving and forever kind,
Because we're one world and won't leave each
other behind.*
